Tamadoge - Best Play to Earn Games 2022

[Tamadoge](#) (TAMA), one of the most exciting and hottest new meme coin, has swept the industry since its [presale](#) launched on July 2. In the short time the [play-to-earn](#) crypto project has attracted extremely high buying volume, hitting the \$7 million milestone currently.

Centers on 3D-animated Tamadoge pets, Tamadoge is a new play-to-earn crypto game in which players can mint virtual NFT Tamadoge pets, battle them against one another, and earn TAMA rewards through the game. Every Tamadoge pet is tokenized in the form of an NFT for easy buying and selling. The Tamadoge game has an exciting economy thanks to the native TAMA crypto token. Players pay TAMA to purchase NFT pets and they can win TAMA when they climb the game's leaderboard by winning battles. In addition, players can use TAMA to upgrades and accessories as the Tamadoge marketplace.

Above all, TAMA is a deflationary token, meaning that the supply diminishes over time. 5% of every TAMA transaction in the game's marketplace is burned. So, as more players join Tamadoge, the value of this coin is expected to rise.

Another nice thing about [TAMA](#) is that there is no tax on the coin. Players won't pay fees to buy or sell TAMA, making it easier for anyone to join the Tamadoge ecosystem.

To put it simply, Tamadoge (TAMA) coin is a deflationary meme coin with utility, the first of its kind. The crypto game distinguishes itself from many other play-to-earn projects by taking a utility-centric approach and offering strong token economics.
