BIGTIME Increases 71% Following Coinbase's Announcement

The price of BIGTIME exploded when Coinbase made the announcement, increasing by a mind-boggling 71% in a matter of hours. The token's current market value is at \$22 million.

The \$22 million in daily trading volume is more proof that there is a big appetite for this cryptocurrency. However, some analysts have raised red flags about the possibility of an early investor sell-off in order to cash in on their gains.

Participate in BIGTIME's Token Economy and Obtain Rewards

Big Time is unique among blockchain-based video games. It's a flexible system that lets users explore a wide variety of worlds and eras, from prehistoric times to the far future. Players have complete creative control over their in-game personas and can shop for unique items with rich backstories and unique abilities.

Non-fungible tokens are used for these items, and they can be bought and sold on an open market or used in-game. By placing a premium on players' time and originality, Big Time's token economy strives to compensate them for their engagement.
