The highly anticipated [Core](#) DAO airdrop launched on [February 8th](#) at 12 PM UTC. Read on to find out how to claim your airdrop via mobile or PC.

Much-Anticipated Core DAO Airdrop Goes Live

After the week-long countdown on Twitter, the Layer one blockchain protocol confirmed the airdrop to the delight of core enthusiasts. On February 8th the first airdrop of CORE coin is enabled.

Core DAO promises to offer users a decentralized, secure, and scalable ecosystem with the Satoshi Plus consensus mechanism. The airdrop is a step toward unleashing the network's capabilities in the Decentralized Finance (DeFi) space.

Before the airdrop, the Satoshi Plus consensus protocol reminded users that they would need a small amount of CORE in their wallets before claiming the airdrop. Fortunately, the protocol will send 0.1 CORE to all eligible users who linked their Core wallet addresses in the Satoshi application.

Upon launch, the network might be congested due to the large number of users trying to claim \$CORE. Increasing the gas price may quicken the transaction. Users can also wait for a less busy time to claim the airdrop with lower gas fees.

Eligible users can claim their airdrops via mobile or PC with easy steps.
