One of the most talked-about additions expected in GTA 6 is the ability to earn [cryptocurrency](#) for completing missions. The last decade in technology has been dominated by and fraught with debate around discussions of cryptocurrencies, the blockchain, and, most recently, Web3. One of the top game titles in the world is said to be adding cryptocurrency to its online incentive system: Grand Theft Auto. Learn everything you need to know about the encryption in Grand Theft Auto 6 right here.

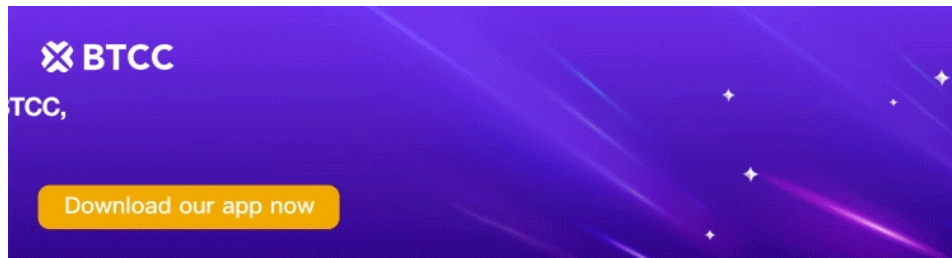

### Can we expect cryptocurrency in GTA 6?

The inclusion of cryptocurrencies in Grand Theft Auto 6 has not been confirmed.

There is a theory that "Crypto" will be the name of the virtual currency used in Grand Theft Auto 6. No one should expect it to function as a true cryptocurrency. This would make a lot of sense, given

the series' penchant for lampooning contemporary culture and the significant part technology currently plays in everyday life.

Others, though, are convinced that GTA 6 will integrate the real-world blockchain and offer gamers the chance to earn actual Cryptocurrency.

## Will GTA 6 Online include a pay to play model?

The existence of a “[play-to-earn](#)” mode in GTA 6 Online has not been confirmed or refuted by Rockstar Games.

In recent years, there has been a rise in the popularity of “play-to-earn” games, in which players are rewarded in real-world cryptocurrency for their efforts. With its Online component, GTA 6 could be cashing in on the market’s potential. There has been no formal word on this, though.

If cryptocurrency does make an appearance in Grand Theft Auto 6, it will probably be a joke or parody. Of course, at this point we know absolutely nothing, therefore it is entirely feasible that Rockstar will heavily incorporate genuine crypto as a central feature of its game.

In related gaming news, the creator of the Steam Deck SSD Mod has warned against using the modification. Hogwarts Legacy’s official website accidentally revealed the game’s Special Edition material. Players aren’t happy about the prospect of microtransactions in Halo: The Master Chief Collection.
