Original:

<https://www.btcc.com/en-US/academy/financial-investment/how-to-buy-byd-stock-byddf-vs-byddy>

Despite BYD stock's meteoric rise in 2020, the company still seems to have plenty of space to go even higher. What are the expectations of investors who purchase BYD stock?

One such Chinese carmaker is BYD. It is a prominent electric vehicle manufacturer on a global scale. Electric motorcycles, solar panels, and rechargeable batteries are some of BYD's other goods. Is it wise to invest in BYD stock, and where can one get their hands on some?

Warren Buffett, a billionaire investor, backs BYD, a Chinese electric vehicle manufacturer. The business has shown that it can seize chances when they come. In the midst of the climate change movement, it spotted a chance in electric vehicles and seizes it. In response to the COVID-19 pandemic, BYD branched out into producing face masks. N95 masks from BYD were purchased by the state of California for \$1 billion.

The sales of BYD cars have been doing well. The Han luxury electric vehicle, made by the same firm, has had exceptionally high demand. When compared to the price of Tesla's Model 3, this vehicle sells for 229,800-279,500 yuan, which is significantly less. The Han sedan has an impressive range of around 376 miles per charge.
