What is Liquity (LQTY)?

Liquity is a decentralized borrowing protocol that enables users to take 0% interest loans by using Ether as collateral. The loans are issued in a stablecoin called LUSD, which is pegged to the US dollar, and require a minimum collateral ratio of 110%.

To ensure the safety of the loans, they are secured by a Stability Pool containing LUSD and by other borrowers acting as guarantors of last resort.

Note that the Liquity platform is non-custodial, immutable, and has no governance system.

Here are the key features of Liquity protocol:

- The platform has a 0% interest rate
- Liquity has a collateral ratio of 110%
- It is a platform that is Governance-free with fully automated operations.
- It allows direct redeemability of LUSD at any time for the underlying collateral at face value.
- Liquity is censorship-resistant with no control by any entity or individual.
- It charges a one-time borrowing fee as low as 0.5%.
- With Liquity, users can borrow LUSD interest-free against their ETH collateral, with no recurring costs
- The platform offers an ETH-backed loan without variable interest rates that accrue over the loan's duration.
- Liquity captures revenue from borrowing and redemption fees.
- The revenue generated is paid out pro rata to LQTY token stakers
- Liquity allows staked LQTY to be freely staked and unstaked with no minimum lockup period.
- LQTY's staking mechanism is straightforward compared to other DeFi protocols.

- Users can add LUSD to the Stability Pool to protect against ETH price drops. Also, Stability Providers can withdraw ETH and LQTY rewards anytime.

LQTY is the native token of the Liquity protocol and has the following use cases:

- LQTY tokens can be used to participate in the Stability Pool and earn rewards for helping to maintain the system's stability.
- LQTY tokens can be used to provide liquidity on decentralized exchanges or lending platforms.
- Borrowing and redemption fees paid on the Liquity protocol are distributed to LQTY token holders.

Current Liquity Price
