Milady Meme Coin (LADYS) Price Prediction: Is LADYS Doomed?

Original:

<https://www.btcc.com/en-US/academy/research-analysis/milady-meme-coin-ladys-price-prediction-is-ladys-doomed>

The price of the [Milady \(LADYS\) meme coin](#) has followed my predictions from last week's analysis precisely. A few days ago, as I expected in that article, \$0.00000003845 was tested again. The price of LADYS has increased due to the retest, but the sellers are still in command.

The price of one Milady meme currency opened the week on the upswing. Up 5.99% as at the time of this writing, it was trading at \$0.00000004171. On Monday, the crypto markets opened in the green after Bitcoin's price climbed beyond \$28,000.

Could LADYS Get Better?

Many people bought LADYS tokens at its most expensive because of the buzz around it on social media. Since the current Milady meme coin price is 75.7% below its all-time high, these investors are now waiting on massive unrealized losses. The most recent data suggests that there is still hope for a turnaround in LADYS price as long as it trades above a significant technical mark.

Coingecko reports that LADYS token's market cap has dropped from \$150 million to \$37 million. The steep drop can be attributed to the diminishing interest of investors in meme coins. The odds of making a full recovery are diminished in this scenario as well.

An Update on the Milady Meme Coin's Price: \$0.00000003845

The LADYS price chart indicates a significant rebound from the \$0.00000003845 support, as I predicted in my earlier articles. Actually, the price dropped by 10% below that support before buyers rushed in to spark a robust recovery.

The price of LADYS could take a nosedive if it were to drop below \$0.00000003845 again. Bulls need to regain the \$0.00000008250 level on the accompanying chart for the Milady meme coin price prediction to change its negative perspective.
