### **Milady Meme Coin vs Pepe Coin: Who's Gonna Win?**

Milady meme coin (LADYS) has become one of the hottest meme coins after generating exponential returns over the past few days. The hype of the LADYS token has really taken off since last week, as it gives other meme coins a run for their money. Consequently, LADYS price has surged 19,600% in the last five days.

On Monday, Milady meme coin price had a great start to the week. Till press time, the price was already up 42%. It outperformed most of the cryptocurrencies in the first trading session of the week. The surge in the recently launched coin came on a day when the BTC price was also up 2%.

### **Can Milady Become Bigger Than PEPE Coin?**

The social media hype has made LADYS token a big hit. According to Coingecko, its market cap has reached \$126 million, which is almost a three times increase from our last article. In the last 24 hrs, \$63.8 million worth of LADYS has changed hands across different centralized and decentralized exchanges.

When Milady meme coin price hit its peak on May 11, its market cap soared above \$150 million. Nevertheless, it is still way behind the PEPE coin's market cap of \$735 million. This means that LADYS still has a long way to go if it wants to become bigger than the PEPE coin.

### **Milady Price May Soar 47% Soon**

The following LADYS price chart reveals that the bulls still have some gas left in the tank. In my last week's article, I predicted a strong bounce from the \$0.0000000362 support level. That's exactly what has happened since then. Considering the momentum behind the current rally, the coin may soon surge above its previous all-time high of \$0.0000002138, which will be a 47% increase from the

current level.

However, Milady meme coin price prediction becomes even more bullish if we expect it to hit the PEPE coin's market cap. This will be at least a six times price increase from the current price of LADYS. It is also worth mentioning here that the season of recalling coins seems to have peaked as investors become more excited by the day.
