Moon Bitcoin Review – Your Best Chance to Get Free Bitcoins

Moon Bitcoin is one of the most profitable and reliable faucets out on the internet with different types of bonuses.

Bitcoin faucets are basically websites or apps that reward users with a small amount of bitcoin when they complete tasks. There are hundreds of free bitcoin faucets available online, so it can be difficult to find a profitable and valuable platform.

However, there are a few that have emerged as completely legit faucet platforms. Among them, one of the most prominent and popular sites is Moon Bitcoin.

In this article, you will find out the complete review of this Bitcoin faucet. Let us look into this review in detail.

What Exactly Is Moon Bitcoin?

Moon Bitcoin is a popular free Bitcoin faucet that lets its users receive rewards for completing surveys and tasks. It is a popular and most used bitcoin faucet on the internet.

Moon bitcoin was introduced in the year 2014. This is a free system that operates on ads. Moon Bitcoin is a faucet that allows earning BTC, Bitcoin Cash (BCH), Dogecoin (DOGE), [Litecoin (LTC)](), and Dash. Moon Bitcoin allows the customers to maintain a little balance every 5 minutes.

How to Register in Moon Bitcoin? A Step-by-Step Guide

You can get registered with Moon Bitcoin with the steps given below:

Step 1: Create your wallet at Coinpot to withdraw your own rewards.

Step 2: Register by visiting the official Moon Bitcoin website, Here put your Coinpot email address and click on the "Sign up" option.

Step 3: "Sign in" to your Moon Bitcoin account and get started.

Step 4: Start by viewing other tweets to earn free Bitcoins.

With regard to the withdrawal time, Moon Bitcoin is one such website that does not limit the withdrawal speed. It enables one to maintain your earnings every 5 minutes. You can check further information at the Moon Bitcoin live Website.

To recover the Moon Bitcoin password, Click on the "Forgot my password" option. Then enter your personal information and user id after which you can reset your password.

5 Ways to Earn Bitcoins on Moon Bitcoin

There are 5 different bonuses offered by Moon Bitcoin which can be listed below:

1) Loyalty Bonus: This is the bonus given to the users that have claimed their Bitcoin reward for consecutive days. The users that follow this process get an additional 1% for claiming their bitcoin rewards for consecutive days.

2) Offer Bonus: This is the bonus given when you complete any surveys or offers on the Moon Bitcoins offerwalls. For every survey or offers completed within the last 30 days, you will receive a 5% bonus added on every faucet claim that you make.

3) Referral Bonus: This is an excellent way to earn Moon Bitcoin cash for referring new users to the system. For each active referral that you make, you get a 1% bonus added to each of your claims, up to a maximum of 100%.

4) Mystery Bonus: This is a unique bonus that typically pops up on the bottom page and offers the users to claim free Bitcoin. The rewards in the bonus may range differently.

5) Mining Bonus: This is an optional bonus offered by Moon Bitcoin to users that allow their computers hashing power. For this, you need to tick the "Run Mining bonus" Option, the website increases your CPU usage by 10-80% and further increases your rewards.

Pros and Cons of Moon Bitcoin

Pros

- The Moon Bitcoin faucet does not require any fees to be paid, thus you can sign up with no initial cost.
- You can claim the mystery and daily loyalty rewards once per day
- An excellent option for potential income sources.
- The reward system is simple to know which helps people to easily understand how to claim rewards and prizes.
- Moon Bitcoin is available in English, which is a common language that people can understand and helps in knowing how the system works.

Cons

- To obtain more rewards, you would need to watch several ads which can be annoying
- There are certain negative comments about the system where the users are unable to claim their rewards.
- The rate of the rewards in Moon Bitcoin fluctuates quite a lot.
- Moon Bitcoin works based on ads and visitor traffic.
- You need to have more referrals to obtain more rewards from Moon Bitcoin.

Is Moon Bitcoin Legit or Scam?

Moon Bitcoin is a completely legit Bitcoin faucet on the internet. It is a highly reputed and trending faucet. It is one of the most reliable faucets out there and has never been associated with any scam or any fake behavior.

Moon bitcoin website has a Large visitor base. This allows the advertisers to make high payments for display ads and thus providing visitors with ensured payouts and free bitcoin.

The business has strong individuals throughout the world. Their Alexa worldwide rank is 5,633 making it one of the very visited and trusted Bitcoin faucets out there.

Bottom Line

Moon Bitcoin offers a unique approach where you can claim whenever you want. This means that you can choose to collect coins at intervals chosen by you (Minimum 5 minute wait) rather than waiting for a specific period of time.

In this system, if you are active and have a good number of referrals you can earn a decent number of coins every day. So, if you are considering an option of making money by watching the ads and taking the surveys, Moon Bitcoin is a perfect and legitimate platform to consider.
