Abstract:

- The SEC's defeat in the lawsuit against [XRP](#) has increased its value.
- The outcome of the lawsuit affects the entire business by making it clear that [cryptocurrency](#) traded on exchanges is not a security.
- AJ, a crypto analyst, claims [XRP](#)'s value will skyrocket to \$25.

Ripple's recent victory in court against the SEC has sent shockwaves of excitement and anticipation through the sector. Respected crypto expert AJ thinks this win will be a game-changer for the price of XRP, sending it soaring to new heights.

A Win for Cryptocurrencies

AJ applauds XRP's historic victory in the lawsuit against the SEC, highlighting how the resolution not only frees XRP from the regulatory uncertainties caused by the SEC but also establishes an important precedent for other cryptocurrencies.

As a result of the positive ruling, major trading platforms have restored XRP, further solidifying the cryptocurrency's non-security status in the eyes of the law.

The Path to \$25

AJ delves deeply into the price predictions, concentrating on the potential of XRP in the upcoming bull run, while the legal victory for XRP generates enormous optimism. Since its inception in 2012, XRP has been supported by the XRP Ledger Consensus Protocol. There are 100 billion XRP coins in circulation right now, or around 53% of the entire supply.

Over the course of 55 months, 1 billion XRP will be distributed monthly from an escrow account. Most of the one billion coins, however, are placed back into a separate escrow account. Despite some confusion about XRP's tokenomics, AJ is an enthusiastic supporter of the currency.

Confidence Is Soaring

Based on the average monthly increase of 209 million coins during 2018, he predicts that the supply would grow to around 5.84 billion by November 2025. Given this expected volume, AJ predicts that XRP's price might spike to roughly \$2.23 if it is able to reclaim its all-time high market worth of over \$130 billion.

The recent court triumph has given AJ renewed hope as she continues on this lengthy journey. Taking all of this into account, the expert forecasts that XRP's price might surge to \$25, providing investors with a massive return opportunity.
