## How to Trade LTC (Litecoin) Futures on BTCC

Original:

<https://www.btcc.com/en-US/academy/crypto-basics/how-to-trade-ltc-litecoin-futures-on-btcc>

The world's largest digital currency asset manager, Grayscale Investments saw the largest capital inflow by raising \$1.05 billion for its investment products during the third quarter of 2020.

Currently, there are more than 510,000 Bitcoin stored in the Grayscale Bitcoin Trust fund (GBTC), which is equivalent to 3% of the total amount of BTC, and its total market capitalization of BTC has reached an all-time high of 350 billion dollars on December 6, 2020.

Beside BTC, Grayscale Investment also launch Ethereum Trust funds and Litecoin Trust funds. The market capitalization of Ethereum and Litecoin are 40.6 billion and 2.7 billion dollars respectively. The move by the digital currency asset manager explain the surge spike in the price of Litecoin.

## 7 Steps on Buying and Selling LTC (Litecoin) Futures at BTCC

**STEP 1:** Open the webpage of BTCC futures trading

**STEP 2:** Choose the type of LTC futures

**STEP 3:** Select the order types

**STEP 4:** Choose the level of leverage

**STEP 5:** Choose the lot size

**STEP 6:** Set take profit and stop loss targets

**STEP 7:** Choose the price direction: Buy when you are bullish, Sell when you are bearish

### **STEP 1: Open the webpage of BTCC futures trading**

**Register a free account at BTCC** in seconds, and make your initial deposit. You can start to trade with the minimum deposit of 2 USDT. If your deposit amount is greater than 500 USDT, you can receive up to 2,000 USDT bonus.

[Register](#)

## STEP 2: Choose the type of LTC futures contract

Select the weekly contract or perpetual contract of LTC at the top of the page.

### STEP 3: Select the order type

Select the order types for LTC at the top right of the page. The order types at [BTCC](#) included market orders, limit orders and stop loss orders.

Market order	Limit order	Stop order
Leverage 50Double	Leverage 50Double	
Most Favorable Price	Most Favorable Price	
- 1 +	- 1 +	
Set Stop-Limit	Set Stop-Limit	
Contract value 76.35USDT	Contract value 76.11USDT	
Reference margin 2.00USDT	Reference margin 2.00USDT	
<b>Buy (LTC Weekly)</b>	<b>Sell (LTC Weekly)</b>	

- Market orders: Users place orders at the best current price to execute buy or sell order

instantly.

- Limit order: A limit order is a type of order set by the trader to buy or sell at a specified price level or better. The buy order will be executed at the limit price or a lower one, while the sell limit order will be executed at the limit price or a higher one. The limit order can be seen by the market, which has given the opportunity for market participants to fill the buy or sell order.
- Stop order: A stop order, also known as the stop-loss order is a type of order set by the trader to buy or sell at a specified price level. The order will be executed automatically after a certain price level has been reached.

#### STEP 4: Choose the level of leverage

You can adjust the level of leverage based on your need. For example, the leverage of LTC's weekly contract included 10x, 20x, 50x, and up to 100x leverage.

The screenshot shows a trading interface for a LTC Weekly contract. At the top, there are three tabs: "Market order" (selected), "Limit order", and "Stop order". Below the tabs, the "Leverage" section is visible, showing "50Double" as the current setting. A dropdown menu lists "50Double", "20Double", and "10Double". To the right, a "Most Favorable Price" section shows a slider set to "1". Below these are "Contract value" and "Reference margin" fields. At the bottom are two large buttons: a green "Buy (LTC Weekly)" button and a red "Sell (LTC Weekly)" button.

Contract value	76.33USDT	Contract value	76.10USDT

## STEP 6. Set take profit and stop loss targets

Market orders, limit orders and stop orders can be used to set stop-profit and stop-loss price targets. The difference is that market orders can be executed immediately at the best current price, while limit orders and stop orders can only be executed at the price within a day or during the week.

Reference margin	2.00USDT	Reference margin	2.00USDT
<a href="#">Buy (LTC Weekly)</a>		<a href="#">Sell (LTC Weekly)</a>	

**STEP 7. Choose the price direction: Buy when you are bullish, Sell when you are bearish**

After setting up the basic data information, users can choose to buy (open long) or sell (sell short) after entering their desired price. Note that the price cannot be higher or lower than the highest buying price or lowest selling price of the platform. Click the buy or sell button, and the LTC order is completed.
