## About Dogelon Mars (ELON)

Original:

<https://www.btcc.com/en-US/markets/Dogelon Mars>

Dogelon Mars (ELON) is one of many Doge-themed crypto with the theme of Doge launched in 2021. The team behind the [cryptocurrency](#) described it as the fair common currency of the people and touted it as the interstellar currency used by the space colonists.

In addition to being a cryptocurrency, Dogelon Mars is also a character in the comic series, which is sold as non-fungible tokens ([NFTs](#)). Ironically, you can only buy them with [Ethereum](#) (crypto:eth).

Although this cryptocurrency has established a large and enthusiastic community, there are many reasons to be vigilant against it. In this guide, we will discuss the highlights of the Dogelon Mars, the red flag, and everything you should know about it.

### How Does Dogelon Mars Work?

Dogelon Mars is an ERC-20 token built on the Ethereum blockchain. You can get it on [Uniswap](#) and exchange it for other cryptocurrencies on the exchange. Most holders only save them in blockchain wallets, and some will donate tokens to victims of cryptocurrency fraud to help complete the mission of the community.

The team has announced plans to expand the Dogelon Mars. At the end of 2021, there was a project announcement, which planned to pledge cryptocurrency through a new \$XELON governance token soon. Developers are also working on an [NFT](#) set.

### Is Dogelon Mars a Good Investment?

There are several good rules to follow for cryptocurrency investment. Don't buy anything that doesn't clearly list its goals. Do not buy meme tokens. And don't buy anything based on Shiba Inu or Elon Musk.

Dogelon Mars is one of many meme tokens that relies on hype because it has no real effect. In the cryptocurrency world, hype is enough to make some short-term prices rise, but this is not the secret of long-term success.

If you want to invest in cryptocurrency, there is a better choice than Dogelon Mars. Look for cryptocurrencies designed to solve real-world problems, not problems on Mars. If you are looking for

something simple, cryptocurrency stocks may be a good idea.

## How to Purchase Dogelon Mars

For those who want to buy Dogelon Mars, there are several options. The simplest thing is to register an account with a cryptocurrency exchange that provides it, and then purchase it through that exchange. Here are some of the major exchanges that own Dogelon Mars.

- Gemini
- Crypto. com
- Kucoin

In addition, you can trade it on the decentralized Uniswap exchange. You need a cryptocurrency wallet with Ethereum to trade. Cryptocurrency is known for its volatility and risk. There is no need to choose a memo token to make your investment more risky. Dogelon Mars has its supporters, but this is not enough reason to buy it.
