About GateToken (GT)

Original:

<https://www.btcc.com/en-US/markets/GateToken>

For many years, the [cryptocurrency](#) exchange has been introducing its own native cryptocurrency to provide additional benefits to its users and become more competitive in the fast-growing cryptocurrency industry. It is beneficial to provide good prices and user-friendly services, but once the exchanges realize that they can attract more people by providing special benefits through their native cryptocurrency, the platform cryptocurrency is born.

With Gate.io as an example — the exchange provides its users with many things, including competitive prices and decent fees. Moreover, it is always attractive to investors and traders because it is always one of the earliest listed new coins and tokens. However, through its GateToken (GT), the platform can not only provide new benefits, but also solve some problems in its ecosystem.

How Does GateToken (GT) Work?

GateToken (GT) is Gate.io a unique token of the cryptocurrency exchange. It is a token deeply related to the industrial chain and working mode of the exchange, because it is used to provide power for the platform, pay gas fees, promote liquidity between cryptocurrencies, and more, as mentioned above.

Most importantly, it provides users of the exchange with a high-performance trading experience. In addition, it also brings benefits such as fast transactions and fee discounts. Of course, because the platform uses tokens to buy back and burn money, there is a considerable opportunity to gain benefits from owning the token - not only because of the passive income it brings, but also because its value can eventually grow, and it can also bring profits in this way.

How Do I Buy GateToken (GT)?

GateToken (GT) can be purchased on the following exchanges.

Gate. IO - established in 2013, the exchange is one of the more popular and reputable exchanges. Gate. IO currently accepts most international jurisdictions, including Australia and the United Kingdom. Canadian and American residents are forbidden. Because most of the benefits of holding GT are seen in the gate exchange, Gate.io is obviously the best exchange to buy this token.

Huobi Global - founded in 2013, Huobi global has become one of the largest digital asset exchanges

in the world, with a cumulative trading volume of US \$1trillion. It should be noted that Huobi global currently does not accept U.S. or Canadian residents.
