

A dark blue banner for BTCC. On the left, the BTCC logo is followed by the text "Enjoy fees as low as 0.03%". Below this, there are two columns of bullet points: "70+ crypto futures", "24/7 customer support", and "100,000 USDT for demo trading" in the first column; "10-150x flexible leverage" and "Support credit card deposits" in the second. On the right, there is a graphic of a smartphone displaying a trading interface with a pie chart, a bar chart, and a line graph. A Bitcoin icon is also visible. A yellow "Register Now" button is at the bottom right.

BTCC
Enjoy fees as low as 0.03%

- 70+ crypto futures
- 24/7 customer support
- 100,000 USDT for demo trading
- 10-150x flexible leverage
- Support credit card deposits

About Voyager Token (VGX)

Original:

<https://www.btcc.com/en-US/markets/Voyager-Token-USD>

[Voyager](#) describes itself as a cryptocurrency broker that provides investors with a trusted and secure access point to crypto asset trading. Voyager is built to serve both retail and institutional investors with a nigh-instant solution for trading crypto assets.

The crypto brokerage service now supports over 55 crypto assets and has a unique smart order routing technology that connects it with over a dozen crypto exchanges. The Voyager Smart Order Router gives users access to the crypto trading market. The mobile app of the Voyager Token launched in January 2019, making it even easier for users to trade cryptos.

The native token of the brokerage, Voyager Token ([VGX](#)), is used to reward users within the Voyager ecosystem. VGX also generates interest when held in the Voyager app, offers cashback rewards, and other services exclusive to Voyager users.

Voyager also offers 100 percent commission-free transactions - including buying and selling. Traders only have to pay only the quoted price when executing an order on the platform.

How Does Voyager Token Work?

Voyager easily connects users to some of the top crypto exchanges via Voyager Smart Order Routing, which acts as a side-chain that connects the app to supported exchanges so users can find the best rates across numerous exchange platforms all in a single app.

The Voyager app is only available for mobile use and supports both iOS and Android systems. The minimum deposit for registering on the broker app is \$10, while the limit for instant trading of funds that are yet to be cleared is \$5,000, which increases wealth opportunities and investment entry for a wider demographic. With Voyager, the main idea is to make crypto trading easy, simple, straightforward, cost-efficient, and widely available, which is why Voyager employs Voyager Smart Order Routing.

What Makes VGX Different?

Voyager has created a network for [crypto trading](#) that feels remarkably similar to clients traditional online brokerages enjoy. Voyager launched its mobile app in 2019 to bring an easy, yet efficient crypto brokerage service to smartphone users.

Voyager Token uses a Smart Order Routing technology that takes advantage of discrepancies between listed prices on cryptocurrency exchanges. This technology helps it connect instantly with over a dozen [crypto exchanges](#) for investors to choose the best exchange rate available for their transactions.

This feature also means that investors can also evaluate the spreads between bid and ask prices and higher levels of liquidity across different crypto exchanges. For traders, it becomes much easier to enter and exit positions.

Although the platform offers professional trading services, it remains very easy to use. The order submission is assisted by Voyager's Smart Order Routing. After selecting a coin or token, the order type, and the amount of the asset to be purchased in USD, Voyager's Smart Order Routing automatically fills out the order.
